

Broadcom Virtual Mainframe Technical Exchange 2024

Tues., Oct. 8

	AIOps and Automation	AIOps and Automation	Data Management (Databases)	Data Management (Databases)	Data Management (Db2/IMS Tools, Storage & Output Management)	Data Management (Db2/IMS Tools, Storage & Output Management)	DevOps	DevOps	Foundations	Foundations	New to Mainframe	New to Mainframe	Security	Workload Automation
9:00 - 9:50amET/ 2pm UK/3pm Prague (CET)	<b>FDN01: Opening Keynote: The New Mainframe Conversation</b>													
10:00 - 10:50amET	AIA14: MICS API Solution and Data Retrieval Examples		DBM13: IDMS New Product Innovation		DMT12: Exploit REST APIs to Unlock More Value From Db2 Suites	DMT11: Empowering Mainframe Data Access: Web Viewer's Streamlined Administration and Intuitive User Experience	DEV02: Automate with Agility: Harnessing the Power of Contemporary Tools with OPS/MVS	DEV14: Mainframe Platform Engineering	FDN03: Software Management Overview		NTM01: Introduction to Mainframe Output Management		SEC01: Security Keynote: Mainframe Guardians - Implementing Zero Trust Security Approaches	
11:00 - 11:50amET	AIA13: OPS/MVS: Current Events and New Feature Review		DBM01: Colruyt Success Story: Harnessing the Power of IDMS APIs and Performance Metrics	DBM16: Datacom New Product Innovation	DMT15: Take Db2 Housekeeping Processes to the Next Level Using Database Analyzer and Automate Almost Everything	DMT03: Introducing Vantage StoragePoint: A Storage Administrator's Best Friend	<b>DEV01: DevOps Keynote: Modern Tools and Processes for the Modern Hybrid IT</b>		FDN04: How Automated Expert Recommendations Help Bridge the Mainframe Skill Gap (MRI)		NTM13: Leveraging Mainframe APIs to Automate CI/CD Pipelines		SEC05: Anatomy of a Mainframe Hack: Using Cybersecurity Best Practices to Stop the Next Attack	WAM04: ServiceNow Integration Use Cases For CA7 & ESP: The Now And The Future
12:00 - 12:50pmET	AIA09: SYSVIEW: Past, Present and Future		DBM07: Datacom Customer Experience: How Application Developers Can Benefit From the Datacom SQL Performance Analyzer and SQL Enhancements		DMT04: Mastering Storage Management Using Modern Techniques with Vantage		DEV18: z/OSMF for Gen	DEV03: Hands-on Workshop: Creating Business APIs with HB.js (BYOD)	<b>FDN02: Foundations Keynote: Modernization: A Continuous Journey</b>		NTM05: When Should You Upgrade Your Zowe Client Apps to a Major New Version?			WAM05: Orchestrate OpenShift with CA 7/ESP

Broadcom Virtual Mainframe Technical Exchange 2024

Wed., Oct. 9														
	AIOps and Automation	AIOps and Automation	Data Management (Databases)	Data Management (Databases)	Data Management (Db2/IMS Tools, Storage & Output Management)	Data Management (Db2/IMS Tools, Storage & Output Management)	DevOps	DevOps	Foundations	Foundations	New to Mainframe	New to Mainframe	Security	Workload Automation
8:00 - 8:50amET/ 1pm UK/2pm Prague (CET)	AIA05: What's Running on Your Mainframe? (WatchTower)	AIA11: NetMaster – The Latest, Greatest, and Yet to Come!	DMT01: Data Management <b>Keynote: Elevate Your Existing Mainframe Investment Through Modernization</b>		DMT01: Data Management <b>Keynote: Elevate Your Existing Mainframe Investment Through Modernization</b>		DEV12: DevX Workshop: End-to-End DevOps Hands-On Workshop (BYOD)		FDN14: Breaking News and Latest Innovations from the Common Services and Open Mainframe Teams		NTM14: Surviving the Mainframe Without 3270: An Introduction to the UNIX System Services in z/OS (BYOD)		SEC03: Compliance Event Manager 7.0 Update	WAM10: Introduction to CA7 Automated Recovery Facility (ARF)
9:00 - 9:50amET/ 2pm UK/3pm Prague (CET)	<b>AIA01: AIOps and Automation Keynote: Driving Resilience and Observability</b>		DBM05: IDMS & Datacom System Maintenance and Best Practices		DMT13: What's New in Db2 Tools in the Last Year and What's in Store for the Future	DMT02: Advanced Reports and New Features in Vantage		DEV13: Unveiling the Magic of SBOMs: Real Life Practical Use Cases	FDN11: Modernizing Data Transport in an API-Centric World using JSON		NTM06: Zowe Explorer: What's New, What's Planned, What's Next?		SEC09: Getting Started with Compliance Event Manager	WAM06: Having a Constructive Conversation with Your Security Admin (ESP)
10:00 - 10:25amET	AIA02: WatchTower Alert Insights: Using the Right Alert Insights to Accelerate Problem Resolution		DBM02: Kyndryl / British Telecom Success Story: Putting IDMS Extract, Transform, and Load (ETL) to Use		DMT05: Achieving PCI DSS v4.0 Compliance with Broadcom's View/Deliver and CA 1 Flexible Storage	DMT20: Uncover Game-Changing Tips for Utilizing Broadcom's REST APIs (Db2, IDMS)	DEV10: Revolutionizing Mainframe Development with Code4z in Cloud Dev Environments	DEV08: Unit Testing Reimagined from a Developer Perspective (Test4z)	FDN05: Preparing for the Installation and Configuration of the Zowe API Mediation Layer	FDN18: Discover a New Level of Security through an OPEN z/VM Architecture	NTM07: A Comprehensive Overview of Zowe Client's Team Config		SEC04: Implementing AES256-bit Encryption in ACF2 and Top Secret	WAM01: <b>Keynote: Workload Automation Modernization Trends</b>
10:30 - 10:55amET					DMT06: Future Trends and Innovations in Output Management									
11:00 - 11:25amET	AIA07: WatchTower Onboarding Series: Installation and Troubleshooting		DBM08: Datacom Server Version 15.1 – The GOAT		DMT07: Security in Broadcom Mainframe Output Management		DEV07: Achieving Code Reviews with Endeavor-based Source Code	DEV06: Hands-on Workshop: True Unit Testing with Test4Z (BYOD)	FDN07: Monitor and Troubleshoot the Zowe API Mediation Layer	FDN19: Taking Advantage of TPX Session Manager Internal Applications	NTM03: Understanding System Authorization Facility (SAF): Joint External Security Manager (ACF2, Top Secret and other ESMs)			WAM02: Modernizing ESP Workload Automation
11:30 - 11:50amET			DBM09: Datacom IDEAL Enhancements and Best Practices		DMT08: Transitioning from Paper Dinosaurs to Contemporary PDFs using Spool									
12:00 - 12:50pmET	AIA06: WatchTower Onboarding Series: Preparing for Installation	AIA10: NetMaster: Tips and Tricks	DBM17: Customer Success Story: Accelerating API development & Delivery leveraging Modern Tooling		DMT14: See the Db2 Performance Forest Through the Trees with Detector		DEV09: Creating a Modern Developer Experience		FDN06: Generative AI Use Cases and Research Update	FDN08: Building Today's and Tomorrow's Mainframe Workforce: A Panel Discussion	NTM04: Securing the Subsystems in ACF2, Top Secret and RACF			WAM03: Exploring the Versatility of CA 7 REST API: Key Solutions for Observability, Problem Management, Data Virtualization, and Cloud Workloads

Broadcom Virtual Mainframe Technical Exchange 2024

Thurs., Oct. 10														
	AIOps and Automation	AIOps and Automation	Data Management (Databases)	Data Management (Databases)	Data Management (Db2/IMS Tools, Storage & Output Management)	Data Management (Db2/IMS Tools, Storage & Output Management)	DevOps	DevOps	Foundations	Foundations	New to Mainframe	New to Mainframe	Security	Workload Automation
8:00 - 8:50amET/ 1pm UK/2pm Prague (CET)	AIA04: WatchTower Topology: Auto-Discover Mainframe Topology Using SMF		DBM11: 10 Things Application Developers Should Know about Datacom		DMT22: Db2 Catalog Queries for Beginners		DEV05: Hands-on Workshop: Visual Studio Code Developer Experience for Gen (BYOD)		FDN09: The Power of Ansible Automation for Mainframe Software Management	FDN15: Detecting SIIIS Inefficiencies and Discovering the Culprit(s) (MICS Resource Management)	NTM08: YAML Crash Course for Mainframe: Writing, Editing, and Troubleshooting in ISPF and Beyond		SEC06: Eliminating 24x7 privileged state	WAM07: Supercharge Your Observability: CA 7 Data via OpenTelemetry for Rapid Issue Detection/Resolution and Self-Service Dashboards
9:00 - 9:50amET/ 2pm UK/3pm Prague (CET)	AIA15: Optimization & Tuning Opportunity Identification with Mainframe Application Tuner: Unveiling Hidden Performance Bottlenecks through PMA Data Mining		DBM04: Databases: Smart/RESTART Enhanced Availability for Mission Critical Workloads		DMT17: The Key to Improving Your Recoverability Posture (Db2 Utilities)	DMT10: Navigating the Conversion Journey: From Competitor's Output Management to View/Deliver Success	DEV11: Patterns for Endeavor Modernization		FDN10: Easytrieve Under Construction: Sneak Peek into the Next Version of Easytrieve 11.7	FDN20: Improve Productivity with PDSMAN EZYEDIT	NTM09: Introduction to SYSVIEW Performance Management (BYOD)	NTM12: Intro to DevOps on Mainframe	SEC07: ACF2 and Top Secret R17 Preview	WAM12: Introduction to ESP: A Beginner's Guide to Mastering the Basics for the Operators
10:00 - 10:50amET	AIA03: WatchTower Real Time Streaming with z/IRIS: Mainframe Inclusive Observability		DBM03: The Importance of IDMS Data Sharing	DBM06: Datacom Customer Success Stories: Sharing Value and Experiences from Embrace Open Workshops	DMT09: Two Power House Solutions, View and Zowe CLI, Working Together to Create a Robust Business Automation Solution.		DEV16: The Seven Deadly Sins of CICS Integrations		FDN12: Configure the Zowe API Mediation Layer for High Availability, Security and Performance	FDN21: VSE Solutions: Latest News from 21CS Plus Tips and Tricks	NTM10: Mainframe Essentials: Software Risk Assessment - Manage Your Mainframe Software Risk and Investment		SEC08: The Secret is Out: CIA and Security Insights Integration	WAM11: Getting More From ESP: Using Best Practices and Advanced Techniques
11:00 - 11:50amET	AIA08: SYSVIEW: Hidden Treasures		DBM12: Datacom Security: Protecting Against Vulnerabilities and Security Breaches While Meeting Regulatory Requirements		DMT16: The Two "Faces" of Recovery Compliance (Db2 Utilities)		DEV04: Hands-on Workshop: Git Native Development with Endeavor Team Build (BYOD)		FDN16: From the First Steps with Zowe to a More Integrated, Hybrid Data Center		NTM16: Mentoring Magic: Developing Mainframe Superstars		SEC02: SDSF internal ISFPARMS Security Conversion to ACF2/Top Secret External Security	WAM13: Ways to Improve ESP Performance
12:00 - 12:50pmET	AIA12: OPS/MVS: Introduction and Overview – Automate Everything!		DBM10: Datacom Best Practices: What you should know using CICS and SYSVIEW		DMT21: PBG to PBR2 Tablespace Conversion Best Practices				FDN17: Using XCOM to Solve the Hybrid Cloud Data Movement Puzzle		NTM11: Tips and Tricks for Analyzing Your Db2 Logs
